PDIP-8L Tube Packing Data

➢ Packaging Description

AOS PDIP-8L parts are normally shipped in tubes. The tube is made of PVC plastic treated with an anti-static agent. Each tube contains 50 units.

Upto 100 such tubes are packed into an anti-static inner box, and an inner label is affixed on this inner box. Four (4) such inner boxes are further packed into a carton box, and an outer label is affixed on the carton box. Thus, a carton may contain 400 individual tubes, and upto 20000 units. Both the inner and outer labels show the AOS part Number, Assembly lot Number, Assembly Date Code and Quantity.
