

## **HEALTH AND SAFETY POLICY**

Jireh Semiconductor Incorporated ("Jireh"), a responsible leader in power semiconductor technology, is committed to providing a safe and healthy work environment for our employees, contractors and customers.

To fulfill our commitment, Jireh incorporates the following into our business activities:

- Injury and Illness Prevention Engagement at all levels of the organization to prevent injuries and illnesses.
- Ownership Identification of core responsibilities for preventing workplace injuries through the Injury and Illness Prevention Plan.
- Control of Hazards Evaluation and control of hazards to eliminate unnecessary risk.
- Safe Work Practices Integration of health and safety practices into Jireh business activities.
- Regulatory Compliance Implementation of policies and procedures that meet and exceed Occupational Safety and Health Administration regulations, and other requirements in the areas we operate.
- Emergency Preparedness Establishment of Emergency Preparedness and Response plans, procedures and training to minimize risk due to potential emergencies.
- Continual Improvement Commitment to continual improvement of health and safety performance.

Policy endorsed by:
